

Paranjirikam

Report

Event Name	Paranjirikam
Organized By	TinkerHub SBCE Pattoor
Date	17 sep 2026
Time	1:30 PM
Venue	Offline

Event Overview

Paranjirikam was conducted on 17 September 2026 at Sree Buddha College of Engineering at 1:30 PM. The event was organized as an informal interaction between the TinkerHub team and the finalists of the First-Year Coordinator interview.

The session provided the finalists with an opportunity to interact with the TinkerHub team in a relaxed and friendly environment beyond the formal interview setting. Through informal conversations and discussions, the team got to understand the finalists' ideas, perspectives, interests, and approach to different situations.

As part of the interaction, the finalists were also given a task that allowed them to demonstrate their creativity, initiative, problem-solving skills, and ability to approach a given challenge. The session encouraged open communication and helped create a comfortable environment for both the team and the finalists.

Objectives

- To interact with the finalists in an informal and comfortable environment.
- To understand the ideas, perspectives, and interests of the finalists.
- To assess their creativity, initiative, and problem-solving approach.
- To encourage open communication and meaningful discussions.
- To help identify a suitable candidate for the **First-Year Coordinator** role.

Meeting of the first year finalists and Tinkerhub SBCE officials

Chit-chating with first year finalists

Participant engagement during the session

Outcome

The session provided the TinkerHub team with a better understanding of the finalists beyond their formal interview responses. The task and interactive discussions helped highlight their **creative thinking, initiative, communication skills, and approach to problem-solving**. It also encouraged the finalists to actively participate and express their ideas in a relaxed setting..

Conclusion

Paranjirikkam served as an engaging and interactive platform for connecting the TinkerHub team with the First-Year Coordinator finalists. The informal discussions and task-based interaction provided valuable insights into the participants’ abilities and perspectives, making the session a meaningful step in the selection process.
