

Design Detective

TinkerHub SBCE — Event Report

Event Name	Design Detective
Organized By	TinkerHub SBCE
Date	15 August 2026
Time	4:30 PM – 7:30 PM
Venue	SBCE Civil Seminar Hall

Event Overview

Design Detective was an interactive session hosted by TinkerHub SBCE, inviting participants to step into the role of design detectives and uncover the hidden stories behind everyday designs — from logos and advertisements to branding choices made by well-known companies.

Through a fun, hands-on offline experience, participants explored how colour, shape, typography, and layout work together to communicate ideas and shape the way people perceive a brand, encouraging them to look beyond the surface of familiar designs.

Objectives

- To encourage participants to observe and analyse everyday designs.
- To understand how colours, shapes, typography, and layouts communicate ideas.
- To explore how visual elements attract attention and influence perception.
- To identify the hidden meanings and stories behind logos and advertisements.
- To encourage curiosity, creativity, and a new perspective towards design.

Session Highlights

Session opener — Design Detective

Participants engaged in the session

Good discussion among participants

Outcome

- **Design Awareness:** Participants developed a sharper awareness of the principles behind visual communication and branding.
- **Critical Thinking:** Examining familiar logos and ads built observation, analysis, and critical-thinking skills.
- **Active Engagement:** The offline, detective-style format encouraged discussion and hands-on discovery throughout.

Conclusion

Design Detective served as an engaging platform for discovering the hidden stories behind everyday design. By combining observation, analysis, and interactive discussion, the session showed participants that every colour, shape, font, and layout can have a purpose — a fun and insightful experience that encouraged everyone to see design with a more curious, analytical eye.

“A whole new way of seeing design.”
